Fun Fact

U.S. currency is actually fabric, not paper. It is composed of 25% linen and 75% cotton. If it were paper, it would easily fall apart.

Meet your Mortgage Hub

Over the summer, we moved our Mortgage Guru, Jen into our office suite at the Cedar Street branch. This space provides us with a centralized location to better serve you and our ever growing mortgage department. Despite having this new, homey space, our loan officers at the Colorado Street branch can still assist you with any and all of your lending needs, including mortgages. Stop in and visit us wherever it is convenient for you.

We recently celebrated our Mortgage Hub with a GMCCI ribbon cutting. We've been a member of the Muscatine Chamber for over 38 years and counting. Fun fact, your favorite credit union is the one and only financial institution born and raised with branches only in Muscatine. We are proud of what we've accomplished since 1957 and are excited for what the future holds, because together we're better.
